

THE WEDDING COLLECTION

BY LAIRSEY PAPER CO.

A NOTE TO PLANNERS

At Lairsey Paper Co., we understand how important it is to find vendors that you can depend on and trust to follow through for your clients. Every referral is a direct reflection on you and your business, and that is something we do not take lightly. Our mission is to make the stationery process seamless, fun, and stress-free for both you and your clients. We are grateful for your trust in us and look forward to partnering with you!

ADDITIONAL RESOURCES

COMPLIMENTARY CONSULTATION

This is available to both planners and clients. During this call, we'll review your client's paper needs, offer suggestions, and walk you through the process while answering any questions you or your client may have. [Click here for availability.](#)

SAMPLE KIT

This kit includes swatches of all available ink and envelope colors, ribbon colors, and a variety of sample pieces from The Collection. You'll get to compare print methods and paper types, see color options in person, and feel the paper in your hands. [Click here to purchase The Wedding Collection Sample Kit.](#)

THE EXPERIENCE

01. Select a base package from the website. We recommend ordering one per household, plus 10-15 extras. Add to cart & check-out.
02. Complete the provided customization form to select embellishments & upgrades - such as wax seals, letterpress printing, and more. If no add-ons are requested, you may opt out within the form and you will not be charged for anything additional.
03. Sign the contract & complete payment for selected add-ons. 50% payment is required up front, and the remaining balance is due upon final print approval.
04. A design & production timeline will be shared with you, outlining important dates and deadlines for the project.
05. Complete the provided wording form with all necessary information.
06. Once wording has been submitted, a detailed proof approval will be shared with you. Two rounds of revisions are included.
07. Proofs are approved for print and final balance is due. Designs are sent to production & supplies are ordered.
08. Any items that require assembly are handled in-house. Everything is then packaged up to be shipped out!
